Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed the allowability of Claims 24-43. The Examiner noted that Claims 38-43 contained the limitations discussed in the interview on May 5, 2010 that would overcome the current art rejection (anticipation by Freed). Therefore, the Examiner informed Applicant that claims 38-43 are allowable over the prior art. Applicant subsequently suggested possible dependent claims to be added to the current claim set via an Examiner's amendment. The Examiner reviewed the proposed amendments and found that they had support in the specification. Therefore, these claims have been added via an Examiner's amendment and claims 23-37 have also been cancelled via an Examiner's amendment..
